AREA OFFICE
WAR MANPOWER COMMISSION

1060 Broad St.
Newark 2, N. J.
June 13, 1944

Mr. Roy E. Norris, Industrial Secretary
N. J. Urban League
58 West Market St.
Newark 3, N. J.

Dear Mr. Norris:

I want to express the appreciation of the War Manpower Commission for the intensive efforts you have made to help straighten out the situation at the Atlas Foundry in Irvington, New Jersey. Your report of June 12, 1944 completely covers the facts.

Representatives of different agencies in Washington apparently are going to give serious consideration of problems concerning manpower difficulties in foundries and forge shops throughout the country. I am hoping that their findings will correct the inequities which your report pointed out.

Very truly yours,

George S. Pfaus
Area Director
